5. Conduct

A graph on a grid showing two intersecting lines. The horizontal axis (x-axis) and vertical axis (y-axis) are both marked with grid lines every 1 unit. The x-axis is labeled from 0 to 10, and the y-axis is labeled from 0 to 10. The origin (0, 0) is at the bottom-left corner. One line has a positive slope, passing through points such as (0, 2), (2, 4), (4, 6), (6, 8), and (8, 10). The other line has a negative slope, passing through points such as (0, 10), (2, 8), (4, 6), (6, 4), (8, 2), and (10, 0). The two lines intersect at the point (3, 4).
